1. **AS OF RIGHT DETERMINATION REQUEST: #24-651, Wood End Road:** Paul Khamarji, applicant. Construct gravel road to barns, fields and pond, consolidate wetlands into an irrigation pond for crops and livestock, clear 8 acres to become pastures and crop fields. Received 1/9/2024 + 65 days = 3/14/2024. Paul Khamarji appeared on behalf of this application. He stated he hopes to turn this 29.5-acre property into a working farm with livestock, a vineyard and varied crops. Chair Wollen noted that there is a large portion of this property which are wetlands. Mr. Khamarji stated that he would like to drain about 8 acres of wetlands by creating a stream to channel water into a pond that will be used to irrigate pasture land and crop fields. Questions were raised as to whether he had worked with an engineer to plan out his project. Mr. Khamarji replied that he had a background in landscape design. The Commission suggested that he work with an engineer or land surveyor to better define the plans. Chair Wollen asked him to flag the wetlands line, stake the pond and the proposed stream in order that the Commissioners may do a site walk.

**2. UNFINISHED BUSINESS:**

- A. **V#21-584** Notice of Violation at 1074 Black Rock Road- Trevor A. Smith (3/14/23) was present to discuss the outstanding violation. He presented a soil scientist report for a part of his property only, however, this report does not deal with the area in question, i.e. the area subject to the violation. The Commission requested Mr. Smith obtain a map that shows the

wetlands including the setback on his entire property. Mr. Smith agreed to have a map showing the wetlands and setback lines. – no new information. 6/9/2023, no new information. 9/12/2023, no new information received. On September 18, 2023, Chair Wollen wrote to Mr. Smith and his attorney Lukas Thomas asking for the map described above. As of this date there has been no reply. 10/10/23, as of this date there has been no reply. Mr. Smith's neighbor appeared at this meeting 10/24/2023 (see #23-646) and mentioned that the civil lawsuit between Messrs. Smith and Ramos has been resolved.

11/20/2023 -Mr. Smith dropped off a site plan and a January 2023 letter from his soil scientist which stated there are no wetlands on his property. This information is inconclusive as it does not show any information about wetlands on adjoining properties. Additional research is being undertaken. December 14, 2023 Chair Wollen reported that she had an e-mail from Joe Welch of Aquarion, which she read into the record. His e-mail recounted that in 2021 Aquarion received a call from DEEP that Mr. Smith was observed dumping construction debris, asphalt and garbage at the head of a creek on his property. Mr. Welch also provided a photo taken by Aquarion staff of the dump site. A discussion ensued wondering if the soil scientist employed by Mr. Smith didn't find any wetlands on the property because the creek had been buried.

Chair Wollen described the research she has been doing into the history of this violation.

**B. Warning** re; activities within 100 feet of wetlands- David Harding 570 Morehouse Road, Easton CT, issued May 17, 2021.

The hearing was held on December 9, 2022. During this hearing Mr. Harding asserted he had obtained a farm designation for his property. His friend and neighbor, Dan Phillips, who also appeared, said Mr. Harding's property was covered by the Stanczyk's permit for regulated activities. Mr. Harding was expected to appear at this meeting with an As of Right Determination request and also provide information regarding the alleged activities at the rear of his property. Mr. Harding wanted Mr. Phillips to speak for him. A discussion ensued re the necessity of the As-of-Right request and was determined that the work Mr. Harding has been doing does not need any permit unless it is performed in a regulated area. Mr. Harding stated that he has been harassed by neighbors and the Town. He claimed that the reason he was issued a warning and a violation because of all the harassment. Chair Wollen stated that none of these allegations are due to the Conservation Commission and there is nothing we can do about them. the front and the back of the property. For the front he is planning to plant Xmas trees and he refused to talk about the back of his property, except that he was not working in wetlands. Cathy Alfandre suggested Mr. Harding pick two or three dates at which time the Commission members could come and inspect the areas of the property that are subject to V#21-592(8/12/21) and the Warning (5/17/21). 6/13/2023- Chair Alfandre read into the record a memo from the WEO Mark DeLieto. The WEO stated he had been invited onto the property by Mr. Harding who stated that he would not allow the Commission to conduct a site visit upon the advice of his attorney. Several members expressed surprise at Mr. Harding's change of mind, since he had been amenable to a site visit at the end of the last commission meeting (5/23/2023) There was a discussion of how to proceed. A suggestion was made to ask Mr. Harding's attorney to contact the Commission.
