

## **SURPLUS MATERIALS**

As dead and hazardous trees are removed by the Town crew, the wood is left on the side of the road so that residents can help themselves to it.

Woodchips are available upon request when the crew is in the area.

U.I. will also be leaving the wood as they clear back the Utility Protection Zone.

Surplus fill (dirt) from the Morehouse Road reconstruction project is now available.

Residents can contact the Public Works Department at (203) 268-0714 if they are interested in the woodchips or the fill.
