1. Appointments: None

2. **Public Hearing Z-14-4805-02, David A. and Charlotte E. Stichter, 225 Maple Road, Easton, CT**, for a variance of Article 5, Sect./Para. 5.4.1 of the Easton Zoning Regulations in order to allow for the reconstruction of a non-conforming barn with a second story loft and new dormer, shed roofs and decks, 18.75' in-lieu-of 40', minimum rear yard setback. Owner/Applicant, David A. Stichter, presented the application for variance and stated that the old existing barn was built in the 1800's and was positioned uniquely close to the rear property line, prior to zoning, and stated that the property to the rear drops off substantially down a hill. Mr. Stichter stated that he had an existing permit to rebuild the barn but had made changes that required him to request a variance, for the shed roofs, dormer and deck. Mr. Stichter stated that these changes do not further encroach on the existing 18.75 ft setback for the barn.

Two people from the public who are nearby neighbors of the owner/applicant spoke in favor of the application for variance.

1. Steve Rowland of 185 Maple Road
2. David Solway of 255 Maple Road

The public hearing was closed.

3. **Decision: On Z-14-4805-02, David A. and Charlotte E. Stichter, 225 Maple Road, Easton, CT**, for a variance of Article 5, Sect./Para. 5.4.1 of the Easton Zoning Regulations in order to allow for the reconstruction of a non-conforming barn with a second story loft and new dormer, shed roofs and decks, 18.75' in-lieu-of 40', minimum rear yard setback, motion was made by Patricia Berlin, seconded by Thomas Dollard, to grant the variance based on the hardship that the barn was falling apart and needed reconstruction and that the proposed reconstruction did not further encroach on the existing setbacks. The motion was amended by Patricia Berlin, seconded by Thomas Dollard, to include that the existing barn pre-dates zoning and that the parcel is unusually shaped. The vote was unanimous, 5-0, motion carried.
