

Easton Farms and Farm Stands in Service to our Community during Covid-19

Through Governor Lamont's Executive Order Stay Safe Stay Home farms and farm stands are deemed essential businesses to remain open at this juncture. Our Easton farmers, farm stands and their retail partners in Easton are eager to fulfill an important role in providing our community with a steady supply of safe and nutritious foods and services during this time. To do so, extra precautions are being taken by each business to keep our community safe. We ask that each citizen honor their social contract by maintaining a minimum of a 6' social distancing and wearing masks as part of the social distancing protocol.

Each farm and store are operating independently to best suit their business model. Please look to their websites or call to find out what process they have put in place. We encourage patience and understanding at this time. The process that was in place a week ago may have changed thus please check before each purchase or visit. Examples of how some farms and stores are operating include: farms are closed to visitors with online, email or call in ordering with curbside pick-up only. Farm markets are open with strict social distancing and common-sense practices in place to limited number of people at a time

allowed in to maintain 6' social distancing protocol. Know before you go!
