

Considering solar for your home?

Helpful links to get started on residential solar research

- A general overview of steps to take when starting the process.
[SolarPanelBuyersGuide.pdf \(ct.gov\)](#)
- An interactive website that highlights “The 4 Key Steps in Your Solar Journey”
 - If you are looking for a list of vetted contractors, this can be found by opening the Step 2 link and clicking on the “Research Contractors” square on the right hand side bar.
[GoSolarCT](#)
- This website highlights the difference between the three options for financing a solar installation (purchase/loan, lease, and power purchase agreement).
[Solar-Market-Spotlight-Q1-2021.pdf \(gosolarct.com\)](#)
- This website provides general pricing information and can help you get different quotes for your address. In Easton, many people have requested quotes, and you can see some of their results.
[Connecticut Solar Panel Installations: 2021 Pricing & Savings | EnergySage](#)
- This is the Easton Building Department’s form that is required to apply for roof mounted solar panels in the town. (Note that ground-mounted solar must be permitted by Planning & Zoning.)
[solar_permit_9-1-2021.pdf \(eastonct.gov\)](#)

If you would like to discuss solar energy with Easton residents who have been through the process, please feel free to email eastonenergytf@gmail.com to ask for contact information.

Ready, Set, Solar
