

TOWN OF EASTON TRAFFIC SAFETY REGULATION

As amended 11/9/2020

The Board of Police Commissioners and the Chief of Police require contractors and service agencies to hire a police officer anytime they perform work on most town and state roads within the boundaries of the Town of Easton. The roads listed below are roads where an officer and at times police vehicle are mandatory. Roads not listed will be decided on a case by case basis. Deciding factors may include weather and time of day.

When a road is authorized for a non-police officer traffic agent, the person responsible for such work shall provide certified traffic control “agents” whose certification to perform such traffic control is recognized by the State of Connecticut and abide by the rules of MUTCD (manual on uniform traffic control devices).

Where traffic control “agents” are provided, the on-duty police personnel may inspect the work area to ensure that it is safe and the traffic flow is properly maintained with appropriate signage. In the event the above conditions are not met by the person responsible for performing such work, the police supervisor or on-duty officer in charge may halt such work until such time as the above conditions can be met.
