ANNUAL REPORT – 2017/2018
EASTON PUBLIC WORKS DEPARTMENT

The Easton Public Works Department continued in its efforts to maintain and improve the 94.87 miles of roads and in caring for other department responsibilities.

The department's duties include: snow and ice removal during the winter season; street sweeping; pot hole repairs; roadside mowing; guide rail repairs; installation and repair of street and traffic signs; tree and brush removal; installation and repair of curbing; and maintaining Town bridges, pavement preservation, road paving, drainage installation, and catch basin cleaning.

Though the department is a much varied and capable unit dealing with many facets of road construction, repair and maintenance, the department is most always in people's minds when snow and icy roads occur. Easton had a total of 64" inches of snowfall, which required the Department to plow on 12 different occasions. Sanding of the Town roads occurred 18 times consuming 613 tons sand and salt mixture and 1,274 tons of salt in the process.

The Public Works Department's spring and summer months are used to prepare roads that will be involved in the Town's chip sealing program for that year. Included in the preparation of the roads are brush cutting, grading back the road edges, removal of boulders from under the existing pavement, patching of these holes, installation of any needed drainage or repairs to existing drainage, sweeping of the road and the application of a leveling course of hot mixed asphalt to maintain proper drainage, which leads to the application of hot liquid asphalt and then covered with a layer of 3/8" Trap Rock. The program comes to its completion about a month later when the excess stone is swept up. During the past year, 6.73 miles of road was involved in this program, with the use of 42,624 gallons of road oil.

This past year the department's drainage program entailed:

- 13 New catch basins were installed
- 13 Catch basins were repaired or rebuilt
- 180 Feet of 6" PVC curtain drain pipe installed
- 60 Feet of 15" Plastic drainage pipe installed at Paine property
- 252 Feet of 15" R.C.P. storm drainage pipe installed
- 40 Feet of 30" R.C.P. storm drainage pipe installed
- 32 Feet of 48" R.C.P. storm drainage pipe installed

The department takes care of all street and traffic control signs on the Town's roads. This past year saw 65 new signs and 26 posts installed and 17 signs repaired and reset.

A section of Judd Road, from #426 Judd Road northerly to the Easton/Monroe Town line was upgraded by installing additional and rebuilding catch basins, installing additional storm drainage pipe, and the pavement base was reclaimed and overlaid with hot mix asphalt.

The section from existing Adirondack Trail to Buttonwood Drive, Trumbull, was accepted as a Town road at the Board of Selectmen's January 18, 2018 meeting.

The final design was completed for the replacement of the South Park Avenue Bridge #04211, by Buck Hill Road; permits issued and construction is scheduled in 2019.

The Town's crew cleared the property for the new solar field, Phase 2, at Samuel Staples Elementary School.

The Town purchased a new medium duty dump truck with snow plow.

The Town's crew continued scheduled work with the bucket truck and was able to once again maintain the Town's parking lot lights and also able to render needed attention to dead trees and hazardous limbs hanging over the Town roadways. The tree work was done in unison with the Town Tree Warden.

Applications for 33 driveway permits and 29 road-opening permits brought in \$1,550 in fees.

The department continued the maintenance responsibility of the former Samuel Staples School, now known as 660 Morehouse Rd. along with working outside of the Public Works Department which accounted for over 3,354 hours of work throughout the Town in unison with the Park and Recreation Department, Board of Education, Town Hall, Library, Easton Police Department, Animal Control, EMS and the Conservation Commission.

Edward Nagy, P.E. - Director of Public Works/Town Engineer

10 Things You Can Do to Prevent Stormwater Runoff Pollution

- Use fertilizers sparingly and sweep up driveways, sidewalks, and roads
- Never dump anything down storm drains
- Vegetate bare spots in your yard
- Compost your yard waste
- Avoid pesticides; learn about Integrated Pest Management (IPM)
- Direct downspouts away from paved surfaces
- Take your car to the car wash instead of washing it in the driveway
- Check car for leaks, and recycle motor oil
- Pick up after your pet
- Have your septic tank pumped and system inspected regularly

To: Philip Doremus
Subject: 785 Sport Hill Rd

Good Afternoon Phil,

I just wanted to confirm that you have gone to 785 Sport Hill Rd to inspect the issue of the homeowners filling in the back of the property.

Thank you
Bruce

DEPARTMENT OF PUBLIC WORKS

ENGINEERING DEPARTMENT

To: All Drivers
From: Edward L. Nagy, Director of Public Works

RE: DUTIES FOR EMPLOYEE IN SWEEPER SUPPORT TRUCK

The driver of the support truck shall perform the following duties while waiting for the sweeper to load:

- Throw rocks and sticks off road in front of sweeper.
- Pick up rocks and other debris left by sweeper.
- Guide the sweeper when backing up in tight spots.
- Pick up litter on side of road and document quantity for stormwater annual report. Fill quantities in Daily sweeping Report.
- Inspect catch basins and storm drainage outfalls for foreign matter and illicit discharges.
- Report to office if catch basin needs to be cleaned out from winter sanding.
- Check catch basin for DAS marker, if marker is missing replace.
- Straighten signs if possible.
- Report any issues in writing to the office.

Please initial that you read this.
