

Easton Garden Club Pollinator Pathway Workshop

Thursday, May 9th, 7 - 9 pm

Easton Public Library Community Room

Free Admission and Open to the Public.

Learn about Easton Pollinator Pathway, how to start your own pollinator garden, and how to buy native plants that are untreated and support pollinator health.

Come away with a few simple steps you can take in your own yard, community garden, or farm to become more pollinator friendly, providing habitats and food sources for bees, butterflies, hummingbirds, and other pollinating insects and wildlife.
