

Easton Police Department

Richard J. Doyle
Chief of Police

Press Release

September 22, 2021

Medical Disposal Box

The Easton Police Department is pleased to announce the installation of a Medication Disposal Box in the lobby of the police department located at 700 Morehouse Road.

I want to remind the community that the best way to dispose of most types of old, unwanted, or expired medicines (both prescription and over the counter) is to drop the medicine off at a drug take back site. The police department will be a permanent drug take back site that is open to the community 24 hours a day, 7 days a week. Anyone can stop off at the police department to place their unwanted medications into a secure prescription drop box in the lobby.

It is so important that we continue to raise awareness in our community about the serious dangers of keeping unused medications in the home, especially when it comes to opioid pain medications. We know that trouble with opioids often starts at home when the unused medications fall into the wrong hands. I urge you to do your part in protecting your family by eliminating the risk. Gather them up and dispose of them safely. The collected medications are permanently disposed of by incineration at an EPA approved location.

The Easton Police Department will continue to participate in the National Drug Take Back Day which is led by the Drug Enforcement Administration. The next drug take back day is October 23, 2021 10:00am-2:00pm at Samuel Staples Elementary School 515 Morehouse Road.
