

Would you like to explore hiking in Easton? The Conservation Commission has developed a new loop trail within the Morehouse Open Space property, around the cell tower on Morehouse Road.

To get there, take the gravel drive towards the soccer fields, go left to the Department of Public Works gate and you will find the entrance and map showing the new trail. It is about a mile of open field and forest trail. Dogs that are leashed are allowed, but we ask that you pick up after them. Enjoy another Easton gem!
