I attended a Narcan Training given by the Easton Police and EMS. If you have a loved one in your home that takes an opioid medication and you have concerns that they may take too much by accident it may be a good idea to have Narcan in your home. It could save their life. Narcan is now available at many pharmacies directly through the pharmacist. If you would like more information on this please give me a call.

I recently went to training up at The Department of Veteran’s Affairs in Rocky Hill to learn more about the different Veteran’s Assistance Programs that are available for those that qualify. Contact me if you would like more information on these programs and to see if you qualify.
